Denman Rd Progress

Pictures of what we had to start with and the finished project

culvert and than back filled with 5 yards of dirt.

Real exciting radio stuff here, but necessary to continue with the next faze.

5 foot extensions were put on either side of the existing

Hurricane Preparedness Kit Barry – N4NMF & Diane – N4DCK

This is our Hurricane Preparedness Kit which we can bring with us if needed. It is a Water Resistant Bag by Ozark Trail that we got at Walmart a couple of years ago after being caught a bit of guard after Irma Hit 3 weeks after we moved here in 2017! Our Kit includes: 2 Ponchos, 2 Flashlights, 2 Head Lights, 2 Portable Battery Operated Fans, Lots of AA, C, and D Cell replacement Batteries, and some Chem Glo Sticks which we purchased at Dollar Tree. I have been checking into Hand Crank, Solar Powered NOAA Weather Radios, however have not decided on one yet, and with the Handheld Radios we already have would probably work ok for now. We also filled some Zip Lock Bags with water we put in our freezer to keep things cool for a while if power goes out as it did during Irma, and other times as well. Propane tanks for our Grill and Dry Snacks – Non Perishable food as well. Just some ideas for your own Hurricane Preparedness Kit. Barry – N4NMF

Ham Shack Of The Month (Sort of!)

By Barry – N4NMF

Here is my Ham Shack In-A-Box. It is a 2 Shelf Blue Gator Box with Standard 19" Rack mount. It has a front and back cover that helps keep out dirt and moisture while providing protection to my Radio equipment during transport. Mounted inside is an Astron SS-30M, a West Mountain Radio 4005U for connecting power to the equipment, and a fan with a switch in the back. The Radio Equipment consists of a Kenwood TS-480 SAT HF/6 Mtr Xcvr w/ Built in Auto-Tuner, Kenwood TM – 733A 2Mtr / 440 MHz Xcvr, and Kenwood TM-331A 220 MHz Xcvr. There is a Comet CFX-324 Tri-Plexer , 3 – SO - 239 UHF F Jacks and 1 – N – F Jack in the back to hook them up to antennas. The first time I used this was aboard the USS Massachusetts at Battleship Cove in Fall River, MA for a Boy Scout JOTA weekend sleepover about 8 years ago.

Notes from the Editor

I want to thank Barry Kennedy for his contributions to the news letter, makes my life easier.

Also want to apologize for being late getting the news letter out, I have caught the Covid bug and have been fighting that.
